

§Appl. No. 10/501,752
Amdt. dated July 16, 2007
Reply to Office Action of, January 16, 2007

Listing of Claims:

1. (Currently Amended) A ~~light-colored~~ standardized extract of Emblica officinalis consisting essentially of over 40% by weight based on the weight of the extract of Emblicanin A, Emblicanin B, Pedunculagin and Punigluconin, and not more than about 1% by weight of flavonoids based on the weight of the extract.
2. (Currently Amended) A standardized extract according to claim 1 consisting essentially of by weight 50-80% based on the weight of the extract of Emblicanin A, Emblicanin B, Pedunculagin and Punigluconin.
3. (Currently Amended) A standardized extract according to claim 1 consisting essentially of by weight: 20-35% Emblicanin A, 10-20% Emblicanin B, 15-30% Pedunculagin and 3-12% Punigluconin, each based on the weight of the extract.
4. (Original) A standardized extract according to claim 1 packaged in powder form.
5. (Original) A standardized extract according to claim 3 packaged in powder form.
6. (Original) A standardized extract according to claim 4 wherein the powder weighs at least 500 g.
7. (Original) A standardized extract according to claim 5 wherein the powder weighs at least 500 g.

§Appl. No. 10/501,752
Amdt. dated July 16, 2007
Reply to Office Action of, January 16, 2007

8. (Currently Amended) A method of producing the standardized extract of claim 6 comprising selecting at least one extract containing not more than 1% by weight based on the weight of the extract of flavonoids and packaging said at least one extract in powder form.
9. (Original) A method according to claim 8 further comprising prior to said selecting, analyzing said extract to determine the content of flavonoids.
10. (Original) A composition comprising a standardized extract according to claim 1 and a cosmetically or pharmaceutically acceptable carrier.
11. (Currently Amended) A composition according to claim 10 wherein the content of said standardized extract is about 90-99.7% by weight based on the weight of said composition.
12. (Original) A composition according to claim 10 further comprising a skin-whitening agent different from said standardized extract.
13. (Original) A composition according to claim 10 further comprising a photoprotective agent different from said standardized extract.
14. (Original) A method of lightening or whitening or even toning skin color comprising topically administering a composition according to Claim 11 to skin in a sufficient amount and for a sufficient amount of time to visibly whiten or lighten or even toning the skin.
15. (Currently Amended) A standardized extract according to claim 1 wherein the content of Rutin is less than 0.01% by weight based on the weight of the extract.

§Appl. No. 10/501,752
Amdt. dated July 16, 2007
Reply to Office Action of, January 16, 2007

16. (Currently Amended) A standardized extract according to claim 2 wherein the content of Rutin is less than 0.01 % by weight of Rutin based on the weight of the extract.
17. (Currently Amended) A standardized extract according to claim 3 wherein the content of Rutin is less than 0.01 % by weight of Rutin based on the weight of the extract.
18. (Original) A composition comprising a standardized extract according to claim 15 and a cosmetically or pharmaceutically acceptable carrier.
19. (Original) A composition comprising a standardized extract according to Claim 16 and a cosmetically or pharmaceutically acceptable carrier.
20. (Original) A composition comprising a standardized extract according to claim 17 and a cosmetically or pharmaceutically acceptable carrier.
21. (Currently Amended) A standardized extract according to claim 1 having an absorbance (optical density) of 0.8 Maximum in the UV (ultraviolet) region at wavelength 350 nm.
22. (Original) A standardized extract according to claim 1 having an absorbance (optical density) of 0.3 maximum in the UV region at wavelength 410 nm.
23. (Currently Amended) A standardized extract according to claim 1 having an absorbance (optical density) of 0.1 maximum in the ~~W~~ UV region at wavelength 470 nm.
24. (Original) A standardized extract according to claim 1 having an absorbance (optical density) of 0.08 maximum in the UV region at wavelength 530 nm.

§Appl. No. 10/501,752
Amdt. dated July 16, 2007
Reply to Office Action of, January 16, 2007

25. (Original) A standardized extract according to claim 1 having an absorbance (optical density) of 0.09 maximum in the UV region at wavelength 590 nm.

26. (Original) A standardized extract according to Claim 1 having an absorbance (optical density) of 0.02 maximum in the UV region at wavelength 650 nm.

27. (Original) A standardized extract according to Claim 1 having maximum absorbances (optical density) in the UV region of 0.8 at wavelength 410 nm, 0.1 at wavelength 470 nm, 0.08 at wavelength 530 nm, 0.09 at wavelength 590 nm, and 0.02 at wavelength 650 nm.

28. (Original) A method of lightening or whitening or even toning skin color according to Claim 14, said composition further containing a pharmaceutically or cosmetically acceptable carrier.

29. (Original) A method of lightening or whitening or even toning skin color according to Claim 14, said composition further containing one or more sunscreen agents different from said standardized extract.

30. (Original) A method of lightening or whitening or even toning skin color according to Claim 14, said composition further containing one or more antioxidants different from said standardized extract.

§Appl. No. 10/501,752
Amdt. dated July 16, 2007
Reply to Office Action of, January 16, 2007

31. (Original) A method of lightening or whitening or even toning skin color according to Claim 14, comprising one or more antioxidants and sunscreen agents different from said standardized extract.

32. (Original) A method of lightening or whitening or even toning skin color according to Claim 14, comprising one or more skin lightening or whitening or toning agents different from said standardized extract.
